

SURPRISE TEST

INTRODUCTION

- The surprise test app is developed to take the surprise test on the aakash tablet.
- This application is connected to google drive which acts as a host.
- Each department has their own google drive to upload their questions.
- Through this app, a faculty can conduct surprise in digital means.

- 
- Test can be conducted in their respective classroom and malpractice can be avoided.
 - Any number of students can take this test simultaneously.
 - This increases the credibility of aakash tablet by improvising it and utilizing it mass number.
 - In this application all the tablets are connected through WIFI.

REAL TIME APPLICATIONS

The image displays three overlapping screenshots of mobile applications. The top screenshot, titled 'TestCode', shows a 'CLICK HERE!' button and a form with the text 'Enter Test Code' and the value '209771615'. The middle screenshot, titled 'EVarsityFi', shows a form with the text 'Enter Registration no.' and the value '125874', followed by a 'Proceed' button. The bottom screenshot, titled 'eVarsity ERP for Education', shows a login screen with the text 'User ID and password to login', two input fields, and 'Log In' and 'Close' buttons. A large circular logo for SRM Institute of Science and Technology is overlaid on the bottom screenshot, featuring a tree and the motto 'LEARN. LEAP. LEAD'.
